To Whom It May Concern,

I am writing to provide a reference for Karen Janiszewski and her Uplevel U: Music program. I have known Mrs. Janiszewski for about 10 years, first as my own Private Music Teacher. As my Violin Teacher, Mrs. Janiszewski was inspiring and knowledgeable. She was so encouraging and I found myself practicing more than I had ever done before. I was a trained Vocalist, but had never been proficient at any instrument. Studying with Mrs. Janiszewski, I became a confident, well-rounded musician. Later, Mrs. Janiszewski hired me to teach at her studio.

As a Music Teacher, Mrs. Janiszewski is a font of knowledge. She has a high level of technical knowledge and has the practical knowledge that teachers gain with years of experience. Ms. Janiszewski has been a successful classroom Music Teacher as well. As a Teacher at her studio, I have had the opportunity to use her resources to improve my own teaching. Her lesson plans and now her Uplevel U: Music program have been invaluable resources for me. She presents concepts in a way that is relatable and easily useable. Going to Music School taught me many things, but not everything I needed to be a highly successful teacher. I have never been a composer, for example, and have been unable to successfully teach this skill. By utilizing Mrs. Janiszewski's program, I have the knowledge to introduce students to composing.

I would recommend Mrs. Janiszewski's Uplevel U: Music program to anyone who feels unsure of their skills or who is just stumped about how to reach a particular student. I believe that even the most experienced Music Teacher would have something to gain by utilizing this program.

Sincerely,

Rebecca Kayorie
